Subject: Microsoft Settlement

I feel the country and the economy will be better off with the current settlement than to drag it through further litigation. It does appear Microsoft was guilty of some antitrust violations but it also appears the current settlement addresses that adequately. I feel we must also recall the good the innovations of Microsoft have done for the country as a whole as well as the good it has done for the economy of each state.

For the record: I am neither a Microsoft employee nor a stockholder.
